

Understanding Networks and Doctors

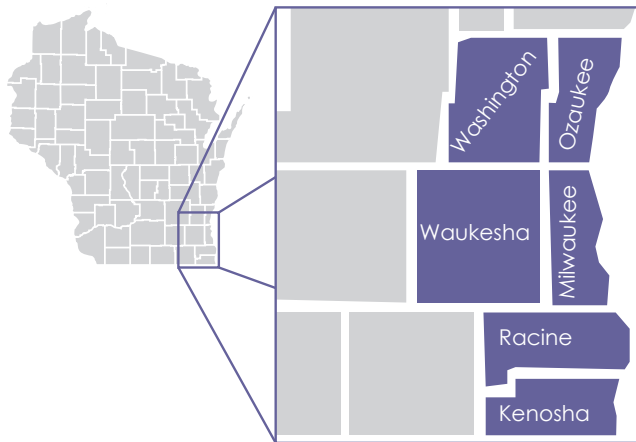

What is a network?

A **network** is the group of doctors, nurses, specialists, hospitals, and clinics that works with your insurance company. You must use in-network medical professionals to save money.

Call Together with CCHP at 844-201-4672 to find a doctor or specialist in-network before you get care. If we don't have the type of specialist you need in-network, you will need approval before we cover the care.

Where can I get in-network care?

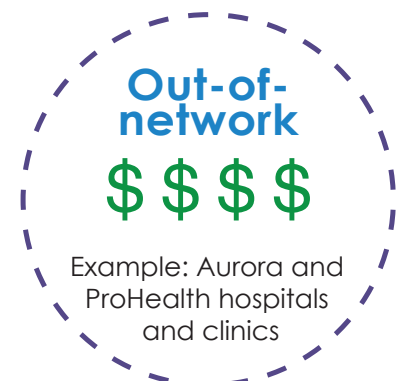

Find a hospital system near you:

- Ascension – Columbia St. Mary's
- Ascension – Wheaton Franciscan
- Children's Hospital of Wisconsin
- Froedtert & Medical College of Wisconsin
- Independent Physicians Network
- Rogers Memorial Hospital

What is out-of-network?

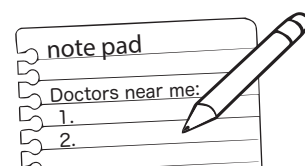

Out-of-network is doctors, clinics and labs that don't work with Together with CCHP. You may pay full price for care if you see a doctor out-of-network.

How to find a doctor in-network

1 Call Together with CCHP at **844-201-4672** and ask for a list of doctors or specialists who are accepting new patients.

2 Call and make an appointment with the doctor.

You can also go online to find a doctor:

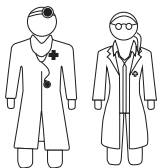

1.) Go to togethlercchp.org/find-a-doc

2.) Click on **Together with CCHP**

You can search by doctor type (**Provider**) or by clinic (**Facility**)

What is a primary care provider?

A **primary care provider**, is the doctor, nurse, or health care professional you see for **most** of your health needs.

Talk with your Primary Care Provider about:

- New symptoms
- How your medicines interact with each other
- Your treatments and if they need to be changed
- Follow-up exams, tests, or visits

Types of Primary Care Providers:

Providers for Adults:

- Internal Medicine Doctor
- Family Practice Doctor
- Nurse Practitioner
- Physicians Assistant

Providers for Kids:

- Pediatrician
- Family Practice Doctor
- Nurse Practitioner
- Physicians Assistant

Providers for Women:

- Obstetrician / Gynecologist (OB-GYN)
- Certified Nurse Midwife
